

## WHAT IS IT?

A flipped learning playlist is a curated list of activities based on the topic we are studying. I create a document with a table listing the activity title, a description, a section for notes, and a column for the students to mark it as completed. The first item on the playlist is always a video I have created listing the expectations for the list, including the days the students have to complete the list.

## IMPACT?

Students are in control of the pace of their learning. I am physically unable to be in all 3 places at once, so this style of hybrid teaching allows students to all get the same experience and information.

### [Q4 STEAM Graphic Design Lessons]

Learning Objective[s]:			
Activity	Directions	Notes	Completed
<ul style="list-style-type: none"><li>Intro to Graphic Design and careers</li><li>Create Personal Logo using Adobe Spark Post</li><li>Create Personal Brand Video using Adobe Spark Video</li></ul>			
View Requirements of this playlist (3 minutes)	Watch this <a href="#">video</a> that reviews the requirements of this playlist. Post your questions <a href="#">HERE</a> , on our class Padlet. <b>There are 4 class periods to complete this playlist.</b>		
Graphic Design Focused Notes	Use <a href="#">this page</a> for notes when watching the videos.		
Graphic Design (2 minutes)	Watch this <a href="#">video</a> to learn the definition of graphic design and some examples of graphic design.		
Graphic Design Careers (5 minutes)	Watch this <a href="#">video</a> to learn about 5 different graphic design careers.
