Step 1

Fold the paper lengthwise along the sides of the box and place both sides behind. The shape of the paper should be a long rectangle now.

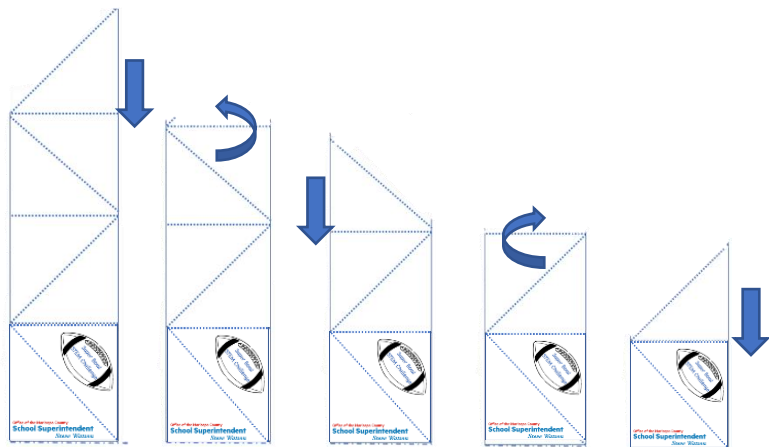

Step 2

Starting at the top left corner, begin to fold the paper backwards over the diagonal line, each time forming a triangle shape.

Step 3

Continue folding the paper diagonally until you get to the bottom square.

Step 4

Fold the last section in half, but with the logos facing out. You will want to put tape on the sides to keep it in place.
