

WHAT IS IT?

I was able to pick up tea lights at the stem resource center for every student in my second grade class. I did a "take apart and put back together" lesson with the students.

IMPACT?

Critical thinking, engineering steps, hypothesis, take apart club, tinker club, engagement, excitement for learning more, identifying parts of the tea light, differentiation in writing activity, reverse engineering, asking questions, actively practice fine motor skills, etc.

TEA Light Activity

**PROMISING
PRACTICES**

Office of the Maricopa County
School Superintendent
Steve Watson
